

The chart displays a single data series labeled "Requests (per second)". The x-axis represents time, with major ticks every four days from 2025-03-05 to 2025-04-01. The y-axis represents the number of requests per second, with a visible range from 0 to 100. The data shows a consistent, high-frequency oscillation. Each day contains approximately 10-12 distinct peaks. The peaks are very sharp, reaching values between 80 and 100 requests per second, while the troughs drop to near 0 requests per second. The overall pattern is highly regular and periodic.
